REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The known prior art does not disclose or fairly teach a marker projectile for marking a target at impact comprising: a cylindrical base; a front end attached to and extending longitudinally from the base, the front end having a nose portion serving as a windshield; a breakable container system located in the space defined by the outer surface of the front end, the container system containing separated chemiluminescent reagents which when mixed produce light; a foam filler which surrounds the breakable container system and fills the space defined by the outer surface of the front end; wherein the container system breaks on setback impact that is exerted during firing and initial launch, causing the chemiluminescent reagents to mix and be absorbed into the foam filler, the foam filler marking the target with the mixed chemiluminescent agents upon impact of the projectile with the target.

2. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James S. Bergin whose telephone number is 571-272-
